MicroMark

Welcome to the 10th MicroMark catalogue detailing a selection of army lists covering mostly Napoleonic wars. This catalogue adds lists for the real "Last Samurai" rebellion, and Japanese lists for the Sino-Japanese War 1895.

What is an "army list"? it was once asked. From MicroMark, it is an A4 colour coded card sheet detailing the organisation and equipment of a particular division, Corps or whole state army. Details of battalion and regiment sizes are given where known, and artillery equipment where known.

MicroMark army lists are unique in that they are available individually - no need to buy a whole book for that one army you are interested in! This means that customers can build up their collection of lists at a rate suitable to them, perhaps as their different armies are being built up. It also means that as new sources of information are discovered, updated lists can be produced quickly (no need to wait 5 years for the second edition book....).

MicroMark lists are unique in format, and they are the most wide ranging - Napoleonic Afghans, Turks, and Burmese for example. Many more new releases are planned, covering Franco-Prussian war, further Napoleonics, and occasionally other mid-19th Century conflicts as and when I can get round to it!

MicroMark like to be consumer responsive - if you do not see a list for a unit you require, please write and ask, we'll see what can be done. In addition, if anyone has information that is not on a list, or contradicts details recorded on lists, then please send it in. Such help will be rewarded. Please note email address: **sultanbev@googlemail.com**

ORDERING MICROMARK ARMY LISTS
